Dear Mr. Donovan:

Mrs. Underhill has asked me to write you regarding your correspondence inquiring about Gary Underhill. She has done so because I was an old friend of Gary's and was in touch with him much more frequently than she was since their separation.

I am quite sure that his comments regarding President Kennedy's assassination were hallucinatory. He had never mentioned these fears to me although I had seen him off and on last winter but they are similar to those flights of his imagination which he had during the last year or so of his life.

Gary had been, for a short time, under psychiatric treatment about a year and a half ago. He unfortunately, did not carry on with it and deteriorated to quite an extent. Unfortunately those of us who had known Gary for many years were not able to help him nor persuade him to seek medical assistance.

If there is any further information I can give you please feel free to drop me a line.

Sincerely,

Paul Ogle
